All are encouraged to dress in **Red/White/Blue** to celebrate the Holiday. Also, we'd like to thank **Joan Marzi -our Club Treasurer** and **Ron Carew**, who have graciously volunteered to be our **Co-Hosts** for this Party.

SHBC TRIVIA NIGHT AT OUTPOST 611

Article: Ellen Henderson; Pix: Linda Maksel + Archives

In a continuation of our Summertime hot rainy season, in which we can do little evening sailing without getting drenched, we followed our SHBC Club tradition and we enjoyed another **Trivia Night** on **August 10th**. For our second one in 2022, **Vice Commodore (& acting Commodore) John Viverito** again selected **OUTPOST 611**, which is in the strip shopping center at McMullen Booth Rd and Enterprise (2454 McMullen Booth Rd, Clearwater - behind Taco Bell & Next to Ed's Fine Wines). After getting a headcount, John made **reservations** for our **group at 6:00 PM** at the restaurant.

Our evening's Trivia contestants included: **CURT & LINDA BRANDT** (just back from her **National Scrabble Tournament** in Baltimore, **GENA CAMERON** (who will be traveling - partially by boat in Germany for 3 months), (GUEST) **REBECCA "DAWN" McCRERY**, **ELLEN HENDERSON**, (NEW MEMBER) **DELORIS COLEMAN & LINDA MAKSEL**.

All enjoyed dinner prior to the **7-9PM Trivia Games** in these various categories: **NASA Space Suits** (this writer's friend was one of the **Space Suit Design Engineers** at subcontractor **International Latex** - known for their famous bra construction), **USD**, **Popular Singer**, **Popular Tourist Location**, **Sat. Night Live Performers**, **You're Killing Me**, **Houston, We Have a Problem**, **Hasta LaVista Baby**, etc.

The ever-charming **Seth** was our **Trivia Night Host** again. Our group excelled in some categories, especially since we had additional input for this Trivia Night. However, the group at the bar were the **Grand Prize winners** for the evening. So, bone up on these categories for our next **SHBC Trivia Night at OUTPOST 611**.

High Performance Air Filters

By Mikey

I have **3 ea. 20"x20"x1"** new air filters, rated **Merv 11** (pretty good). I am offering them for free to the first to ask for them. I bought this size by accident.

MERV 11 High Strength Diamond

MERV 11 high-strength diamond pleated air filters are internally reinforced with a wire frame to prevent the filter from blowing out in applications where the HVAC system may place increased pressure on the filter due to high velocities or high moisture. MERV 11 pleated air filters provide between 80% and 85% efficiency

for filtering particles between 3 and 10 microns in size (such as mold spores, dusting aids, and cement dust). They also provide between 50% and 65% efficiency for filtering particles between 1 and 3 microns in size (such as legionella, lead dust, humidifier dust, coal dust, and nebulizer droplets).

However, I find myself needing more volunteers and support to keep this program running, So below you will find some volunteer items I need help with to make our program run.

Freedom is in need of Volunteers to:

Florida511 Traffic Cameras

By Mikey

I always wondered if some of those traffic cam video feeds were available to the public. I did manage to locate the Florida511 cameras. Last time I checked, there were 9 active camera feeds, but see note below.

When you go to the site, you will see stills (snapshot pictures) that update about once a minute. Above the pictures is a “Show Video” button. Clicking on that will activate the live view of the traffic. I also discovered someone has remote control because I saw on picture swing around and zoom in. It then returned to the normal setting.

NOTE: You can also click on the 3 dots, then Show On Map, to see a lot more interactive information as well as a LOT more videos.

Sentinel Newsletter Terms of Submission:

Material may be slightly corrected for grammatical or spelling errors, but generally left as-is unless you request otherwise. Ideally, a Microsoft WORD document would be easiest to process, but we can work with text, HTML, most word processors, or Google e-mails. **Videos cannot be converted to be used in the Newsletter**, but are okay if the end destination is the Club website. PDF files can now be converted, but the results are iffy. Text and image messaging to my cell phone, not so much. If you wish to submit your story or report in another word processor or document format, contact the S.H.B.C. Webmaster / Newsletter Editor (me) for discussing.

Submissions must be complete with text and images. If received after the 24th of the month, they will be held over for publication and not included in this current issue.

Images / photographs: If using a cell phone to take the picture, please hold the phone in the horizontal (**landscape**) position. Otherwise, they are rotated 90 degrees at my end. Unless of course it was your intent to put them in sideways, then please let me know.
